## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 42, and 44, drawn to apparatus and method for limiting the rotation of the ocular globe of an eye to facilitate alignment of said instrument with the axis of astigmatism, classified in class 351 subclass 208.
- II. Claims 21-39, 43, and 45, drawn to apparatus and methods for supplying visual feedback to an operator during refractive surgery of an eye, classified in class 606, subclass 005.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as supplying to the operator a visual feedback during refractive surgery of the eye other than astigmatism, such as refractive corrections of hyperopia and/or myopia. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3739

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to the applicant's representative, Ronald B. Hildreth (Reg. No. 19,498), on May 13, 2004, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ahmed M Farah whose telephone number is (703) 305-5787. . The examiner can normally be reached on Mon-Thur. 9:30 AM-7:30 PM, and 9:30 AM - 6:30 PM on every other Friday.
